

Side event fin.techsummit 22.10.2019

Big round tables

14.00 – 15.00 „Green “banking

Topic: *No only technologies and innovations are subjects of bank's interest, as well as actual green policy, which brings green financing.*

Questions: *What is the direction of green thinking in banks? How is green policy applied in Slovakia and how do clients identify with it? Do clients prefer the electronic statements or not printing of confirmation? What are the other options which green banking offer? Is the Slovak market ready for green banking products (green loans, operational financing green deposits)? What do green funds and bonds present? How can banks align their "Green KPIs" in the context of the Slovak Bioeconomy Strategy which is currently under preparation? What percentage of the "Green loans" could be allocated to the support of bio-based companies? Which types of incentives can they concretely offer? What are the minimum conditions for the bioeconomy actors (farmers, BBP producers, processing industry, brands, etc.) to be eligible for such funding? How can we create synergies with other green funds and loans available through ESIF?*

Panellists:

- **Lívia Vašáková (SK)** / Head of Economic Analyses Section
- **Klaudia Drábiková (SK)** / 1st Deputy CEO 365.bank

15.00 – 16.00 „Capital market of new generation “

Topic: *Digitalization of capital market*

Questions: *In which way is the capital market influenced by digitalization? What opportunities does it bring? Can we start talking about "tokenization"? Can we quantify the potential of the capital market in Slovakia? What changes are necessary to revive the declining capital market? What is the current state of the world economy (QE4, negative yields, trade wars) and how does it reflect to Slovak market? Government regulations and investor protection programs, are they beneficial or stifling? Which industry*

is the best to invest in now? What are the opportunities for crypto markets? STO (Security Token Offerings) where are the pros and cons? What are the challenges ahead for the crypto markets? KYC/AML practices and crypto? How does digital asset management grow in the world?
